

CROSS WITH ONE TEAR

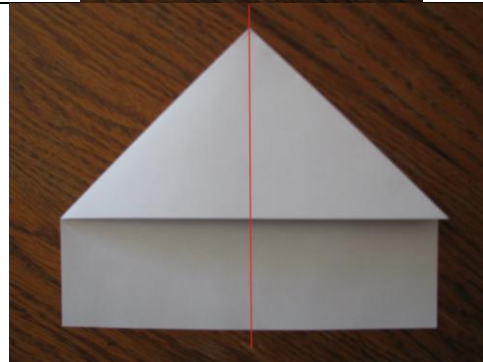

Fold down the top right corner, along where you see the red line in the picture. Make sure the edges on the left line up.

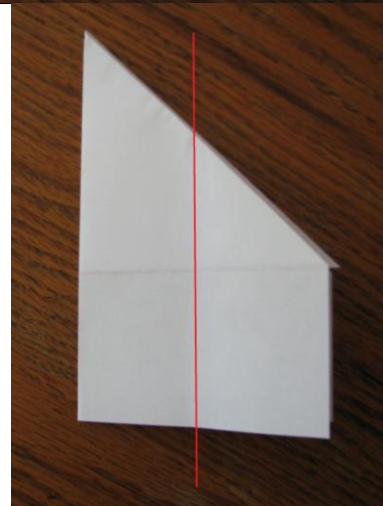

Fold down the top left corner

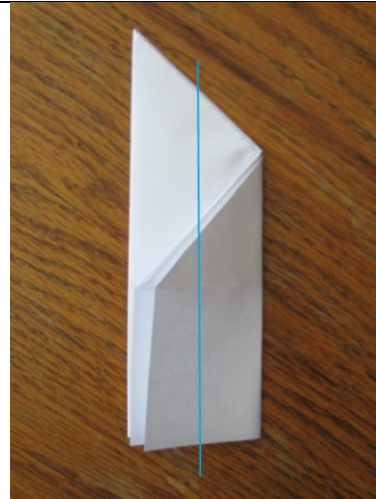

Fold the whole thing in half.

Fold in half again.

Tear it in half down the middle (on the blue line). It's easiest if you start tearing from the bottom.

Unfold all your pieces. The biggest one is your cross.

You can use the rest of the pieces to spell out the word "Life."
